

# eRSA

eResearch SA Ltd  
State eResearch Services Provider

## eRSA

- Incorporated joint venture, owned by the 3 SA universities
- Provider of eResearch services to South Australian research community and beyond
- SA vehicle for collaborative projects locally, nationally and internationally

## Planning

- 5 year vision, 3 year rolling business plan, 1 year operational plan
- Assess research areas in SA, and some future trends by yearly research survey in each university
- Develop and review service catalogue accordingly
- Work with State and Federal government for environmental issues

## Resourcing

- Funding from members – small subscription plus fee for service
- Other funding from enterprise services, innovation and government funding
- We need to be able to share and easily access specialist equipment nationally, and to be able to accommodate peak needs. We should not be developing anything without collaboration capability

## Skills

- Base technical skills are OK
- Trainee program to accommodate “not normal IT” skills
- Need to develop data management, big data and information management personnel – very few on the market
- Need researchers to talk to researchers
