

**AeRO**  
Australian  
eResearch  
Organisations

**6<sup>TH</sup> NATIONAL FORUM**  
**CANBERRA - 22 JULY 2015**  
10AM – 4PM - ANNE HARDING CENTRE,  
UNIVERSITY OF CANBERRA  
HOSTED BY INTERSECT, CAUDIT AND AARNET

## ROADMAPPING AUSTRALIA'S eRESEARCH FUTURE

Substantial investments in eResearch infrastructure and services have been made over the past decade with AeRO's Members and other organisations delivering these services.

The Australian Government has established the National Research Infrastructure Review, which will shortly recommend a framework for future infrastructure planning and provisioning.

How planning, coordinating, building and operating eResearch infrastructure will sit within and support that framework is now a key issue.

### Speakers include:

**Prof Susan Pond**

Aust. National Research  
Infrastructure Review

**Prof Tom Cochrane**

The 2014 Status Report

**Dr Rhys Francis**

Enhancing research impact  
and our stock of knowledge

**Dr Markus Buchhorn**

The evolution of AeRO

### Discussion topics will include:

- What is the best way to plan and coordinate the provision of eResearch services for the years ahead?
- How do we develop eResearch services to meet the needs of researchers into the future?
- What are the best ways to structure eResearch services for sustainability and evolution?
- How do we fully support users and providers of eResearch services?
- What are the ways AeRO can drive support for the community and these activities?

### Who should attend:

Senior Representatives including AeRO members and other eResearch service providers, IT directors and eResearch leads from institutions, NCRIS capabilities, Government and other agencies.
