Towards Australia's eResearch 2025

Three key direction-setting government initiatives are driving change during 2016:

A **Framework** approach to eResearch investments over the next decade,
The **National Innovation and Science Agenda (NISA)** commitments to research infrastructure, and
A national **Research Infrastructure Roadmap** this year.

Attend this National Forum. Collectively tackle key questions. Provide feedback to the draft Framework.

Who should attend:

Senior representatives from: eResearch service providers, CIOs/IT directors and institutional eResearch leads, NCRIS capabilities, Discipline communities, Funding bodies, Government & other agencies.

COME ALONG – GAIN INSIGHT – CONTRIBUTE YOUR IDEAS
